

MAXIM® PLATINUM®

# MAXIM® PLATINUM®

MAXIM® Climbing Ropes is proud to introduce MAXIM® PLATINUM®, the world's first dynamic climbing rope with a permanent connection between the core and the cover. With the PLATINUM® technology we weave the sheath between the core yarns at fixed intervals. This results in reduced sheath slippage especially when the rope gets cut and creates an ultimate in safety, durability & redundancy. MAXIM® PLATINUM® also convinces through its soft handle and impresses climbers by running as fast and smoothly through quickdraws as thinner ropes do.

In addition, the MAXIM® PLATINUM® features our unique Warning Track tracer system. The tracer color changes to indicate the mid point of the rope and also warns you when reaching the end of your rap by increasing the numbers of red tracers.

## Features

- ✓ Permanent connection between core & cover
- ✓ Warning Track tracer system
- ✓ Designed to minimize drag in quick draws
- ✓ Designed for Trad & Sport Routes
- ✓ Great for developing routes

## Specifications

<b>Core:</b>	Polyamide/Nylon	① Single rope
<b>Cover:</b>	Polyamide/Nylon	
<b>Standard:</b>	EN 892 UIAA 101	

Ø	Weight		Sheath slippage	Elongation		Max. Impact Force	Number of Falls	
	g/m	lbs/100		dynamic	static		minimum	average

Middle mark 2x-DRY

Warning Track

*The handling of MAXIM® PLATINUM® is superb. The knotability is great and it holds a bowline without slipping, yet does not overly bind on a figure 8. MAXIM® PLATINUM® is a beautiful, unique, and elegant rope that especially advanced climbers will love.*

Randy Leavitt

*We are very impressed with the rope's soft handle, in addition it belays and runs through quick draws like a dream. The rope's color scheme also makes it a stand-out and adds to the "premium" nature of the rope.*

Cameron & Jonathan Hörst

**⚠ WARNING!**

Using these products can entail risks. Do not use them for any other than the intended purposes. Especially, do not use them for lifting purposes as specified in EU Directive 2006/42/EC, unless the products are clearly identified as suitable for such purposes under relevant standards. Customers shall make sure that persons using the products are familiar with their correct use and the necessary safety precautions. Keep in mind that any of these products can cause damage if incorrectly used, stored, cleaned, or overloaded. Check national safety regulations, industry recommendations, and standards for locally applicable requirements (e.g. choice of safety factors).
